Subject: Donlin Scoping Meetings

Yesterday we did not make it to Quinhagak as there was severe weather but I recommended we take the day and meet with local entities. We met with Orutsarmuit Native Council and AVCP.

Today we were scheduled to go to Kipnuk and their generator went down and so they cancelled the meeting. Both of these meetings will need to be rescheduled.

Today we will do the same as yesterday and meet with local entities. Today we will reach out to the Kuskokwim Watershed Council. I am also recommending we meet with the refuge if they are interested as well as staff from YKHC. The weather is looking much better already and will continue to improve and so we will likely make it to Nunapitchuk and Aniak.

EPA is a cooperating agency and I tec
